

Canadian Hernia Society –Société canadienne de chirurgie herniaire

Annual Conference, Toronto. Saturday September 10th. 2016

Program

8:30 **Opening Remarks Dr. John Morrison President. Canadian Hernia Society**

Session 1

Chronic inguinal pain following inguinal herniorrhaphy

Moderators	Dr. Robert Bendavid	University of Toronto
	Dr. John Morrison	University of Western Ontario
8:45	Paper 1.	A chronicle of 140 mesh explantations: The next frontier in pain management? Causes, results and recommendations. Dr. Kevin Petersen. Las Vegas Nevada. USA
9:05	Paper 2.	The statistical reality, incidence, spectrum of chronic postoperative inguinodynia. Is it preventable ? Professor Henrik Kehlet. Copenhagen. Denmark
9:25	Paper 3.	Chronic inguinodynia. The pathology of mesh and time. Is it preventable ? Dr. Vladimir Iakovlev. Toronto . Canada
9:45	Paper 4.	Conservative management of chronic inguinodynia, when is it considered to have failed? When should mesh be removed ? Professor Giampiero Campanelli. Milan. Italy.

10:05 **Discussion**

10:30 Coffee with the Exhibitors

Session 2

BIOMATERIALS

Moderators	Dr. Lloyd Smith	University of Toronto
	Dr. Jacinthe Lampron	University of Ottawa
11.00	Paper 1	Abdominal wall prosthesis 101. Dr. Gaetan Brochu. Quebec City. PQ
11:15	Paper 2	Resorbable synthetic abdominal wall meshes. Dr. Dennis Klassen. Halifax. NS
11:30	Paper 3	<i>In vivo</i> contraction of polypropylene hernia prosthesis: Correlation between polymer surface and degradation Exacerbated by chronic inflammatory reactions. Robert Guidoin Ph.D. Quebec Quebec City. PQ
11:45		Discussion

12:15 **Annual Canadian Hernia Society Business Meeting and Election of Officers**

Members Only

12:45 **Lunch**

Session 3

Management of infected biomaterials and abdominal wall infection

Moderators **Dr. Dennis Klassen** Dalhousie University **Dr. Yves Bendavid** University of Montreal

Dr. Fred Brenneman University of Toronto

2:00 Paper 1. Biofilms, MRSA , and the compromised patient. **Dr. William Hope. North Carolina. USA**

2:20 Paper 2. Infected meshes. Do they all require removal ? **Dr. Michael Rosen. Ohio. USA**

2:40 Paper 3. Operative management of infected meshes. **Dr. Shannon Fraser. Montreal. Canada**

3:00 Paper 4. Management of the complicated stomal hernia. **Dr. Michael Rosen. Ohio. USA**

3:20 **Discussion**

3:30 Coffee with the Exhibitors

Session 4

Invited presentations

Moderators **Dr. Hari Kumar Ondiveeren**

Dr. Gaetan Brochu. Laval University.

4:00 Paper 1. The reinforced Shouldice Repair – Combination of anatomical reconstruction and long term resorbable mesh.

Dr. Andreas Koch. Cottbus. Germany

4:15 Paper 2. Loss of Domain - Management with pre-operative Pneumoperiteum,

Dr. Yves Bendavid. Montreal. Canada

4:30 Paper 3. Reoperation for inguinal hernia recurrence in Ontario. A population based study.

Dr. Joshua Ramjist et.al Toronto. ON

4:45 Paper 4. A prospective randomized controlled study to compare transfascial sutures and fibrin sealant for mesh fixation during the Rives-Stoppa repair for ventral hernia. **Dr. Daniel Suarez. et al. Leon. Mexico**

5:00 **Discussion**

5:15 Closing remarks . Dr. John Morrison President. Canadian Hernia Society

VISITING GUEST SPEAKERS

Ralph

Professor Giampiero Campanelli Milan, Italy

Dr. William Hope North.Carolina., USA

Professor Henrik Kehlet Copenhagen, Denmark

Dr. Andreas Koch Cottbus, Germany

Dr. Kevin Petersen Las Vegas, Nevada

Dr. Michael Rosen Ohio, USA

FACULTY

Dr. Robert Bendavid Toronto, Canada

Dr. Yves Bendavid Montreal, Canada

Dr. Gaetan Brochu Quebec City, Canada

Dr. Fred Brenneman Toronto, Canada

Dr. Shannon Fraser Montreal, Canada

Dr. Robert Guidoin Quebec City, Canada

Dr. Vladimir Iakovlev Toronto, Canada

Dr. Dennis Klassen Halifax, Canada

Dr. John Morrison Chatham, Canada

Dr. Lloyd Smith Toronto, Canada
